

SILVERPACK

" Your Flexible Packaging Partner "

• SILVERPACK CO., LTD • SILVERPACK PTE LTD • SILVERPACK SDN BHD •

Company Background

Silverpack Co. Ltd. has established as a leading flexible packaging material manufacturer in China and the Asian region over the years. Our manufacturing plant is situated in Chaoshan, Guangdong Province, China. Silverpack currently sit on a land of approximately 80,000 square feet. We have also acquired ISO 9001 quality management system and have developed into a large-scale modern enterprise.

Silverpack manufacture high barrier, laminated in multilayer products such as various flexible plastics bags, bulked packaging film, vacuum and microwaveable plastic bags and printed rolls. Silverpack manufactured packaging materials are used by wide range of food industries for their multiliterous packaging functions. Primary among them are packaging of tea, confectionery, milk products, snacks, biscuits, coffee, instant food items, oil, seafood, tobacco, pet food and etc.

Packaging is Silverpack's business and we bring more to our client other than manufacturing capabilities and technical expertise. Our professionals offer one-stop service. Cost effective and innovation packaging solutions are tailored to our clients' businesses and products by using the most advance technology. We take pride in providing quality product along with unparalleled customer service.

Partnerships with our clients are key to our company's success. Silverpack understand that our clients business is unique and maintains close contact with customers to develop the correct packaging solution by offering expertise that can help improve packaging processes and most importantly, our customer profits.

“ Your Flexible Packaging Partner ”

CEO message

The remarkable growth witness by Silverpack is evidence of our customers' acceptance in China and the ASEAN region. Silverpack continues to play a crucial role in providing customers vital support in the rapidly changing business environment. Our business is not geared only to China but also gaining a foothold in the ASEAN region and now establishing networks covering Southeast Asia. Our business activities and results speak for themselves earning us a strong presence in the flexible plastic packaging industry.

In 2008, many corporations are facing increasingly severe economic turbulence. To us, barriers to access represent an opportunity. Silverpack has the flexibility and the power to make decisions and act rapidly; enabling us to steadily contribute to manufacturing that satisfies customers' need.

Everything we do at Silverpack revolves around a single goal – exceed our customers' expectation. Only by prioritizing our customers, we can continue our steady growth. Even as we've grown, Silverpack has never strayed from our vision of serving our clients and the community through innovative measures. On behalf of Silverpack, we would like to thank you for your trust and valued patronage.

“ Your flexible Packaging Partner ”

Mr. Jimmy Ng
Chief Executive Officer

Product Quality

Product Quality

Product quality is one of the most important aspects. We use the best available food grade raw material for manufacturing our products. We do not compromise on the quality of raw materials used. Every manufacturing process is subject to necessary quality control checks to produce quality output. Our well equipped laboratory is manned by qualified and experience team to conduct various impact, tensile strength, bond strength, seal strength, drop strength and coefficient of friction testing and etc.

Client

Our people make the differences. Silverpack take every step to solve our clients' problem. Our customers' needs are our priority. Our people work hand-in-hand with our clients and suppliers to provide the best solution for high-quality packaging, with on-time delivery, at a highly competitive price. Silverpack offers experience, capability and technology, flexibility, and customer service that surpass our clients' expectations.

Range of Products

We specialise in roto-gravure printing and lamination of various high quality plastic packaging materials including OPP, MOPP, PET, MBET, CPP, MCPP, FOIL, NYLON, LLDPE etc. Our products can be presented in roll or bag form.
